

Featured League Information

Sim Racer Hub has been developed to help the iRacing community build, grow, and learn. Our goal is to make continuous improvements not only to the website, but to our member leagues as well. As part of that growth, we will be featuring a handful of leagues each month on our sidebar as well as our Featured Leagues page.

To be considered as a Featured League, your league must meet the following criteria:

- League Stats must show at least 50 racers with more than 1 start
- League must be a minimum of 6 months old
- League must be active
 - You should have races scheduled for at least the next month
 - Exceptions made if you are in an 'off-season'

If you agree to become a Featured League we ask that you help promote our service in the following manner:

- Like/Share/Follow our social media channels (@SimRacerHub)
- Tag us in posts about your league (if you don't tag us in EVERYTHING, that's ok, but please do your best)
- Use our logo in your event/league posters and promos (logos available in the media channel on the discord)

To apply to become a featured league, please email csnead@sneadcompetitiondesign.com with the subject Featured League Application. In this email, please provide the following information:

- League Name (as written on Sim Racer Hub)
- League ID (Sim Racer Hub ID can be found at the top of the Edit League page above your League Name)
- Social Media accounts (if any)
- If broadcasted, please provide the broadcast company and outlet (YouTube, Facebook, etc.)
- League logo (jpg or png format; 300px x 300px max size)

If you are accepted as a Featured League, that does not mean you will be one forever. To help the entire community, we will rotate leagues in and out of featured status roughly once a month. Additionally, we will occasionally audit our list to make sure you are holding up your end of the bargain.

Thanks for supporting Sim Racer Hub! Happy Racing!
